Plant and Soil

International Journal on Plant – Soil Relationships

Issued under the auspices of the Royal Netherlands Society of Agricultural Science

Editorial Board: M. Adams, *Melbourne, Australia*; C. Atkins, *Perth, Australia*; A.J.M. Baker, *Melbourne, Australia*; P. Bakker, *Utrecht, The Netherlands*; R.W. Bell, *Murdoch, Australia*; R.M. Boddey, *Rio de Janeiro, Brazil*; A.C. Borstlap, *Utrecht, The Netherlands*; J.W.G. Cairney, *Sydney, Australia*; I. Cakmak, *Istanbul, Turkey*; J.M. Cheeseman, *Urbana, IL, USA*; D.E. Crowley, *Riverside, CA, USA*; D. Douds, *Wyndmoor, PA, USA*; P.J. Gregory, *Reading, UK*; A. Hodge, *York, UK*; T. Kalapos, *Budapest, Hungary*; T.B. Kinraide, *Beaver, WV, USA*; H.J. Kronzucker, *Toronto, Canada*; J. Lynch, *University Park, PA, USA*; P. Marschner, *Adelaide, Australia*; F.R. Minchin, *Aberystwyth, UK*; C. Neill, *Woods Hole, MA, USA*; P. Randall, *Canberra, Australia*; S. Recous, *Laon, France*; H. Schat, *Amsterdam, The Netherlands*; L. Stoumann Jensen, *Fredriksberg, Denmark*; G.J. Taylor, *Edmonton, Canada*; C. Vance, *St. Paul, MN, USA*; J.K. Vessey, *Winnipeg, Canada*; L. Wade, *Crawley, Australia*, F.J. Zhao, *Hertfordshire, UK* and Y.-G. Zhu, *Beijing, China*

Editor-in-Chief: H. Lambers, *Perth, Australia*

Managing Editors: P. Poot and L. Bultynck, *Perth, Australia*

Consulting Editors:

P. Ambus, *Roskilde, Denmark*
J. Barcelo, *Hertfordshire, UK*
T.J. Bouma, *Yerseke, The Netherlands*
M. Brundrett, *Crawley, Australia*
B. Chen, *Beijing, China*
T.D. Colmer, *Perth, Australia*
M. Corbeels, *Planaltina, Brasil*
M.F. Cotrufo, *Caserta, Italy*
M. Cramer, *Rondebosch, South Africa*
R.A. Dahlgren, *Davis, USA*
S.O. Duke, *University, USA*
D.J. Eldridge, *Sydney, Australia*
A. Escudero, *Salamanca, Spain*
J.E. Fernandez, *Sevilla, Spain*
J. Flexas, *Palma de Mallorca, Spain*
T.S. Gahoonia, *Copenhagen, Denmark*
T. George, *Canberra, Australia*
M. Geypens, *Leuven, Belgium*
X. Han, *Beijing, China*
P. Hinsinger, *Montpellier, France*
E. Hofland, *Wageningen, The Netherlands*
J.W. Hopmans, *Davis, USA*
Dr. Inderjit, *Delhi, India*
E.J. Joner, *Aas, Norway*
T. Kaspar, *Ames, IA, USA*

PLANT AND SOIL

Contents Volume 269 Nos. 1–2 February 2005

Part I

2nd International Symposium on Phosphorus Dynamics in the Soil–Plant Continuum

Guest editor:
Z. Rengel

Preface vii–viii

Assessment of P availability in heavily fertilized soils using the diffusive gradient in thin films (DGT) technique
N.W. Menzies, B. Kusumo & P.W. Moody 1–9

Improving phosphorus availability in two upland soils of Vietnam using *Tithonia diversifolia* H.
P.T. Cong & R. Merckx 11–23

Mobility, solubility and lability of fluid and granular forms of P fertiliser in calcareous and non-calcareous soils under laboratory conditions
E. Lombi, M.J. McLaughlin, C. Johnston, R.D. Armstrong & R.E. Holloway 25–34

Increasing phosphorus supply in subsurface soil in northern Australia: Rationale for deep placement and the effects with various crops
D.K. Singh, P.W.G. Sale & R.R. Routley 35–44

Rhizoeconomics: Carbon costs of phosphorus acquisition
J.P. Lynch & M.D. Ho 45–56

Combining a modelling with a genetic approach in establishing associations between genetic and physiological effects in relation to phosphorus uptake
M. Wissuwa 57–68

Variation in phosphorus efficiency among 73 bread and durum wheat genotypes grown in a phosphorus-deficient calcareous soil
L. Ozturk, S. Eker, B. Torun & I. Cakmak 69–80

Evaluation of phosphorus starvation inducible genes relating to efficient phosphorus utilization in rice
T. Shinano, M. Nanamori, M. Dohi, J. Wasaki & M. Osaki 81–87

Phosphorus cycling in rainfed lowland rice ecosystems on sandy soils
S. Pheav, R.W. Bell, G.J.D. Kirk & P.F. White 89–98

Assessment of phosphorus leaching losses from arable land
S. Fortune, J. Lu, T.M. Addiscott & P.C. Brookes 99–108

Water table fluctuations and groundwater supply are important in preventing phosphate-eutrophication in sulphate-rich fens: Consequences for wetland restoration
E.C.H.E.T. Lucassen, A.J.P. Smolders, L.P.M. Lamers & J.G.M. Roelofs 109–115

Part II

Regular articles

Effect of pH on Na induced Ca deficiency
P.M. Kopittke & N.W. Menzies **119–129**

Effects of water stress and high nocturnal temperature on photosynthesis and nitrogen level of a perennial grass *Leymus chinensis*
Z.-Z. Xu & G.-S. Zhou **131–139**

Iodine toxicity in a plant-solution system with and without humic acid
C.L. Mackowiak, P.R. Grossl & K.L. Cook **141–150**

Sulfur and nitrogen fertility affects flavour of field-grown onions
J. McCallum, N. Porter, B. Searle, M. Shaw, B. Bettjeman & M. McManus **151–158**

Effects of sample post harvest treatment on aerobic decomposition and anaerobic *in-vitro* digestion of tropical legumes with contrasting quality
K. Tscherning, E. Barrios, C. Lascano, M. Peters & R. Schultze-Kraft **159–169**

Effect of ectomycorrhizal fungi on nitrogen mineralisation and the growth of Scots pine seedlings in natural peat
T. Sarjala & H. Potila **171–180**

How does nitrogen availability alter rhizodeposition in *Lolium multiflorum* Lam. during vegetative growth?
F. Henry, C. Nguyen, E. Paterson, A. Sim & C. Robin **181–191**

Non-phototrophic CO_2 fixation by soil microorganisms
A. Miltner, F.-D. Kopinke, R. Kindler, D. Selesi, A. Hartmann & M. Kästner **193–203**

Contribution of plants to N_2O emissions in soil-winter wheat ecosystem: pot and field experiments
J. Zou, Y. Huang, W. Sun, X. Zheng & Y. Wang **205–211**

Experimental study of solute transport and extraction by a single root in soil
J. Kim, Y.-S. Chang, M.Y. Corapcioglu & M.C. Drew **213–224**

Heavy metal uptake by arbuscular mycorrhizas of *Elsholtzia splendens* and the potential for phytoremediation of contaminated soil
F. Wang, X. Lin & R. Yin **225–232**

Transgenic alfalfa secretes a fungal endochitinase protein to the rhizosphere
M. Tesfaye, M.D. Denton, D.A. Samac & C.P. Vance **233–243**

Mg induced Ca deficiency under alkaline conditions
P.M. Kopittke & N.W. Menzies **245–250**

Use of near infrared reflectance spectroscopy to predict nitrogen uptake by winter wheat within fields with high variability in organic matter
B. Stenberg, A. Jonsson & T. Börjesson **251–258**

Riparian roots through time, space and disturbance
D.K. Kiley & R.L. Schneider **259–272**

Boron and salinity effects on grafted and non-grafted melon plants
M. Edelstein, M. Ben-Hur, R. Cohen, Y. Burger & I. Ravina **273–284**

Senna siamea trees recycle Ca from a Ca-rich subsoil and increase the topsoil pH in agroforestry systems in the West African derived savanna zone
B. Vanlauwe, K. Aihou, B.K. Tossah, J. Diels, N. Sanginga & R. Merckx **285–296**

A methodology for measuring drainage and nitrate leaching in unevenly irrigated vegetable crops
N. Vázquez, A. Pardo, M.L. Suso & M. Quemada **297–308**

Early effects of phenolic compounds, extracted from two forest litters, on ammonium uptake and assimilation in _Pinus laricio_ and _Pinus pinaster_ seedlings
A. Muscolo, M. Sidari, M.R. Panuccio, C. De Santis & A. Finocchiaro **309–320**

Nitrogen redistribution from the roots in post-anthesis plants of spring wheat
A. Andersson, E. Johansson & P. Oscarson **321–332**

Effects of NO_3 deficiency and NaCl stress on suberin deposition in rhizo- and hypodermal (RHCW) and endodermal cell walls (ECW) of castor bean (_Ricinus communis_ L.) roots
L. Schreiber, R. Franke & K. Hartmann **333–339**

Is soil carbon mostly root carbon? Mechanisms for a specific stabilisation
D.P. Rasse, C. Rumpel & M.-F. Dignac **341–356**

Characterisation of arbuscular mycorrhizal fungi colonisation in cluster roots of _Hakea verrucosa_ F. Muell (Proteaceae), and its effect on growth and nutrient acquisition in ultramafic soil
F.M. Boulet & H. Lambers **357–367**

Selenium concentration in wheat grain: Is there sufficient genotypic variation to use in breeding?
G. Lyons, I. Ortiz-Monasterio, J. Stangoulis & R. Graham **369–380**
